

Congratulations On Your Engagement!

We're honored to be one of the photography groups you have considered for your big day! We know what it means to have that responsibility and we enjoy being a part of this moment in a couple's lifetime.

Throughout our years of providing photography service, Legacy Design & Photography (LDP) has developed a style that is professional, unique and memorable for you as a couple. We're confident that your experience with us throughout this process, from consultation to the receiving of your final images, will meet that expectation. From our equipment, to albums and prints, you will be satisfied with what we have to offer. We offer a range of packages to be able to meet your needs, along with a la carte services that you may not be aware of.

With the services we provide, we promise to be available for you to contact us whenever you may need us during this process. LDP values the partnership that comes along with our position, and takes that aspect as seriously as every shutter-click that will happen the day of the wedding. There is no need to hesitate in reaching out to us for any questions or conversations regarding any plans for your wedding.

We thank you for the opportunity to present our service to you.

William & Sheyonna Watson

Legacy Design & Photography

We started by photographing student events we participated in during our studies at the University of Michigan Ann Arbor. What began as an interesting hobby has evolved into a passion for capturing life's moments.

Everyone has a special something that sets them apart. As a married couple, we offer a true team, working together seamlessly to make your experience a memorable one. Going through our own wedding, along with the many we've photographed together since, there won't be much that we haven't come across before. With that experience, we also know that quality service to you has to extend to your family and guests, or we haven't lived up to our word.

Legacy is special to us, as our business, in part, honors those that helped us get here. We feel Legacy will be meaningful to you as the work we do will be something that lasts; something you'll share with your children and theirs.

Common Questions

How much does LDP charge?

We have three packages to choose from! You'll find information below regarding services and products included in each package. We can also provide a la carte products (prints, additional albums, etc) if needed.

Will you reserve our date?

Within our industry, our booked dates are considered "inventory" and therefore cannot simply reserve a date without a retainer and a contract. Retainers are as low as \$650, depending on the package selected. The contract also guarantees our attendance and expected professionalism as photographers, so you can feel confident and worry free!

Do you allow for payment plans? If so, when are they due?

We do allow for installments, and the number of installments, along with the dates of payment will be set at the time of contract signing. The balance in full must be paid no later than a week prior to the wedding date.

What do you consider to be your "style"?

We have come to develop our own brand of photojournalistic photography. While you as a couple will be our focus, we want you to be able to relive the entire day years from now. There WILL be things you didn't catch or notice, and we feel that is our job to provide with the "unknown memory". You've spent months, sometimes years, of planning for this day. We will ensure you take it all with you. We would never put a cap on the number of images you receive, because ultimately, that would add up to us

taking your memories away. We also enjoy, when appropriate, framing special shots of you and your spouse-to-be. Finally, we take special time in post-processing to give each photo the care

that it needs. Before your eyes view it, we make sure it is an image we would be ready to share with the world ourselves.
